Game Content Spec Sheet

Question Types

Question Type Descriptions:

- **Multiple Choice**
 - Player must select *ONLY* the correct answer from a list of possible answers
- **Multiple Select**
 - Player can select one or several correct answers from a list of possible answers
- **Text Input**
 - Player must enter their answer manually
 - Creator can upload one or more answers that are acceptable as a correct response
- **Image Match**
 - Player is given a question and chooses the correct image to answer
- **Poll**
 - Player answers a survey question without feedback
- **Infoslide**
 - The infoslide allows the creator to “set the scene” for the player prior to the gameplay
 - Also used when adding videos or images to questions

Jeopardy!

We always recommend that Admins/Creators format the game questions in a Word document ahead of time.

Once the questions and answers are designed creators can quickly copy and paste these answers in to the game builder.

* Max character limit

- Clue Text Recommend no more than 295
- Category Name 30
- Answer Text Recommend no more than 75
- Feedback No limit
- Opening Phrase 32
- Advanced Feedback
 - WYSIWYG text editor
 - This editing tool gives the Admin/Creator options to add bold, highlight colors, italics etc to the slide.
 - No character limits

Min Questions = 4 per round (2x2 grid) **Approx Game Time:** 20 mins
Max Questions = 30 per round (6x5 grid) **Approx Game Time:** 90 mins

Question Types

- Multiple Choice
- Text Input

Always “**Save Draft**” after changes when creating a Jeopardy!® game.
Adding files will require a <**Save Draft**> more regularly during game creation.

Advanced Feedback

* Max character limit

- Correct and Incorrect Feedback examples.

In the event more extensive feedback is required, we recommend using the Advanced Feedback feature

755 characters and 119 words

The screenshot shows a Jeopardy! game board with a blue background. At the top, a yellow box contains the text "Sports For \$170". Below this, a question is displayed: "IN 1994, THIS OLYMPIC FIGURE SKATER BECAME EMBROILED IN CONTROVERSY WHEN HER EX-HUSBAND ORCHESTRATED AN ATTACK ON HER FELLOW U.S. SKATING RIVAL." Below the question are four answer buttons: "KATARINA WITT", "SASHA COHEN", "TONYA HARDING", and "NANCY KERRIGAN". The "TONYA HARDING" button is highlighted in green and has a gold medal icon, indicating it is the correct answer. Below the buttons, the word "CORRECT" is displayed in large white letters. At the bottom, a blue button with the word "NEXT" is visible.

1510 characters and 238 words

The screenshot shows a Jeopardy! game board with a blue background. At the top, a yellow box contains the text "Sports For \$44". Below this, a question is displayed: "IN 1994, THIS OLYMPIC FIGURE SKATER BECAME EMBROILED IN CONTROVERSY WHEN HER EX-HUSBAND ORCHESTRATED AN ATTACK ON HER FELLOW U.S. SKATING RIVAL." Below the question are four answer buttons: "NANCY KERRIGAN", "TONYA HARDING", "KATARINA WITT", and "SASHA COHEN". The "TONYA HARDING" button is highlighted in green and has a gold medal icon, indicating it is the correct answer. Below the buttons, the word "CORRECT" is displayed in large white letters. At the bottom, a blue button with the word "NEXT" is visible.

Trivia

Trivia

We always recommend that Admins/Creators format the game questions in a Word document ahead of time.

Once the questions and answers are designed creators can quickly copy and paste these answers in to the game builder.

Max character limit

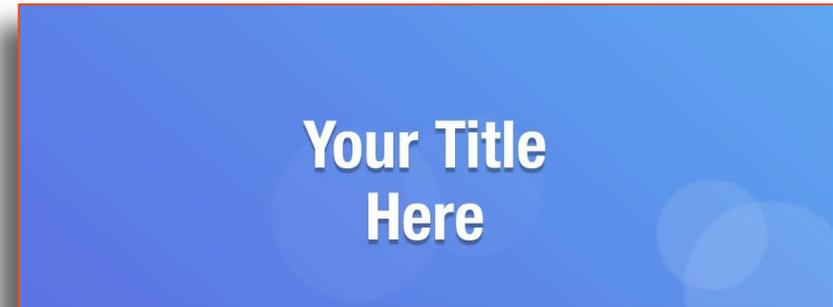

- Question Text 175
- Answer Text 150
- Feedback No limit
- Limit questions Yes - per round basis

Question Types

- Multiple Choice
- Text Input
- Image Match
- Poll
- Multiple Select

• Infoslide

- WYSIWYG text editor
 - This editing tool gives the Admin/Creator options to add bold, highlight colors, italics etc to the slide.
 - No character limits (Slide layouts may impact available text volume)

Scenarios

Scenarios

The answer fields in Scenarios have a recommended character limit of 75.

An Admin/Creator can utilize more than 75 characters if needed.

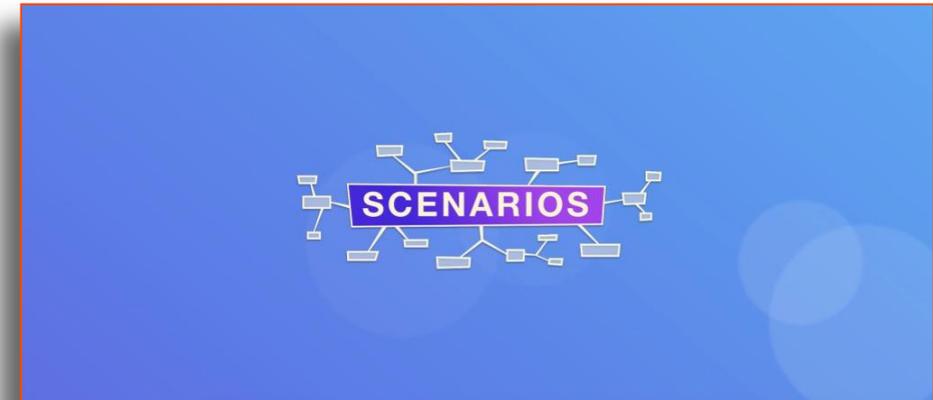

However, using more than 75 characters can cause the font to appear smaller in the game.

Max character limit

- Question Text No limit
- Answer Text Recommend no more than 75
- Feedback No limit

Question Types

- Multiple Choice
- Text Input
- Image Match
- Poll
- Multiple Select
- Infoslides + Advanced Feedback
 - WYSIWYG text editor
 - This editor gives the Admin/Creator options to add more detail such as bold, highlight colors, italics etc to the slide.
 - No character limits

Jump

Max character limit

- **Question Text** 175
- **Answer Text** Recommend no more than 75
- **Feedback** No limit

Available Question types:

- **Multiple Choice**
- **Multiple Select**
- **Poll**
- **Image Match**
- **Text Input**

Sort-It

Sort-It

Max character limit

- **Grid Title** 50
- **Grid Box Title** Recommend no more than 50
- **# of Columns** 6 max
- **Row Title** Recommend no more than 50
- **# of Rows** 6 max

Available Grid Types:

- **Text**
- **Image**
- **Empty**

Admins/Creators can leave grid boxes empty, these will appear as blank fields within the game.

This is helpful if there are differing amounts of answers required within the grid row or column.

Score 0 **Cardiomyopathy** Round 1 / 1

	Enlarged ventricular chamber	Chelation therapy, bone marrow transplantation	LVH with decreased chamber volume	Digitalis, positive inotropic agents
	Dilated Cardiomyopathy		Hypertrophic Cardiomyopathy	
Echocardiography	Verapamil therapy			Biatrial enlargement
Treatment		Thickened LV Wall & Septum		
Anatomy	Decreased Contractility			

×1 SUBMIT

Scramble

Scramble

Admins/Creators can limit the amount of questions presented to player in each round of play

Sentence Scramble

- Question Text 110
- Answer Text 100
- Feedback No limit
- Timeout No limit

Letter/Word Scramble

When creating a letter or word scramble, add a space to allow for a 2 word scramble.

We recommend words between 5 - 12 characters for the best game experience, though you can use up to 100!

- Question Text 100
- Answer 100
- Feedback No limit
- Timeout No limit

Recall

Recall

For the best game experience we recommend creating games with:

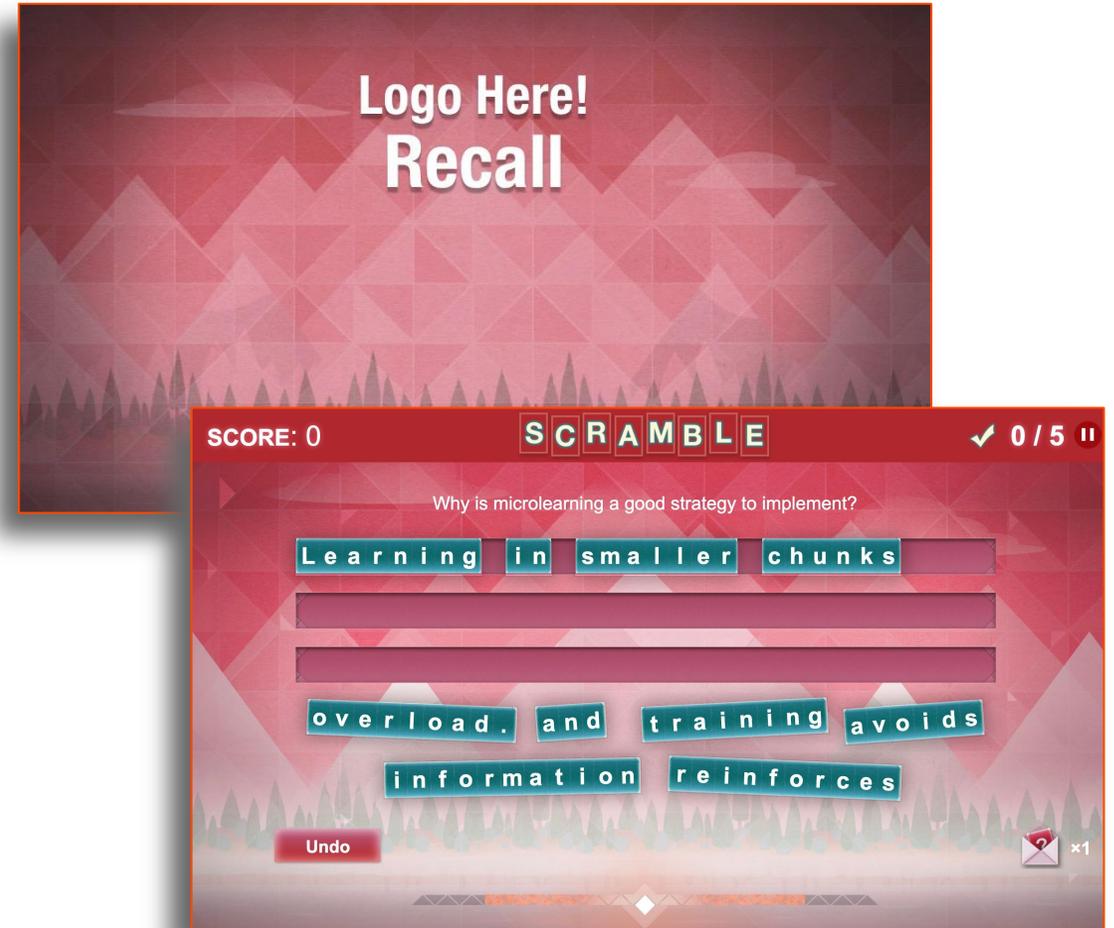

- 1-5 Question Groups
- 1-5 Questions within a Group

Max character limit

- | | |
|-----------------|---------------------------|
| • Question Text | No limit |
| • Answer | Recommend no more than 75 |
| • Feedback | No limit |

Available Question types:

- Multiple Choice
- Multiple Select
- Poll
- Text Input

Match

Match

For the best game experience:-

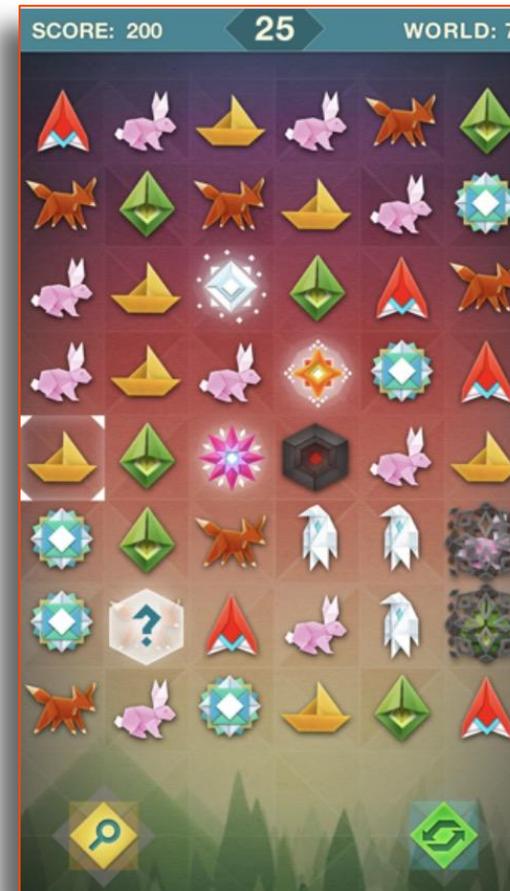

- Set how many questions the players sees *before* the game begins
- Determine how many questions the players sees *during* the gameplay

Max character limit

- | | |
|-----------------|----------|
| • Question Text | 350 |
| • Answer | 150 |
| • Feedback | No limit |

Available Question types:

- Multiple Choice
- Multiple Select
- Poll
- Text Input
- Image Match

Detective

Detective

For the best game experience:

- Add multiple suspects and cases to each game
 - Determine the guilty suspect and connected evidence prior to game building
- Cases can be continuously added to existing games

Max character limit

- Case name 50
- Top Section Unlimited
- Evidence
 - Top Section Unlimited
 - Evidence list name 40
- Suspects
 - Top Section Unlimited
 - Evidence list name 40
- Deliberation, Final Reveal, and Lineup
 - Top Section 200
 - Top Section (linking) 200
 - Body Text 295

Asset Specs

IMAGE UPLOAD SPECIFICATIONS

- For best results, image size should be 1080 x 1920 and image ratio should equal 16:9.

To help you adjust your images accordingly, we suggest using this tool:

<https://www.calculatorsoup.com/calculators/math/ratios.php>

*For answer images, always upload square images in JPEG or PNG.

VIDEO UPLOAD SPECIFICATIONS

- All videos MP4 (30MB limit) or link to any URL

AUDIO UPLOAD SPECIFICATIONS

- All audio files must be MP3
